## ABOUT THE 2024 CONFERENCE:

An emerging reality for adults with developmental disabilities is the impact and experience of trauma related to sexual violence and exploitation.

This conference recognizes the Direct Support People who walk through and provide support during times of trauma and crisis. The secondary toll this places on those supporting it is real and challenging.

Join us to learn from experienced professionals about identifying and providing support to people who have experienced sexual violence, and how to maintain health and wellness for ourselves.
